

Move Out Instructions

Date:	Property Location:
Tenant's Name:	Amount on File:

Please be aware of the following Termination Agreement reminders and call if you have any questions regarding your security deposit or vacating procedures.

1. Termination of tenancy is complete upon repairing the rental unit to a condition equivalent to its condition at time of move in.
2. Utilities must be kept on and in your name through the end of your lease term. For example, through August 31 and turned off September 1. All final utilities bills must be paid when due.
3. Return all keys at time of final inspection.
4. As well as general cleaning when terminating occupancy, tenants agree to clean and defrost refrigerator; clean kitchen range by removing burners (and other easily removable parts) and cleaning thoroughly and replacing the same. Easy Off or other similar cleaner should be used on the inside of oven, racks, broiler trays, and other parts which have baked-on food.
5. Professionally steam clean carpets (see enclosed list for authorized carpet cleaning companies), clean and mop all vinyl floors, wipe down all counter tops, clean out all cupboards, and disinfect and clean bathrooms. Lime Away, Vanish and Comet are recommended for hard water stains.
6. The Colorado Real Estate Commission allows for 60 days after the tenant has vacated, to refund any deposits due.
7. Call us in advance to schedule the final inspection. Please provide a forwarding address at this time.
8. Please remember this is a brief cleaning outline. Cleaning is not limited to the items listed above. All rules of your lease will apply when it comes to your vacating the premises, especially those of the Security Deposit Agreement. This will include all areas of the property, including the yard, grounds, garages, etc.
